Display VIP Photos

1. The "Wall of Fame" Gallery

Create a dedicated section or a sub-page titled **"Our Guests"** or **"Celebrity Moments."** * **Layout:** Use a polaroid-style grid where each photo has a small caption (e.g., *"The legendary Chef Suresh Pillai at our Grand Opening"*).

- **Effect:** This gives the restaurant a "landmark" feel.

To rank #1 on Google for Karunagappally food searches, your metadata needs to balance high-volume keywords (like "Best Restaurant" and "Karunagappally") with the specific unique selling points (USPs) of the restaurant.

Since we are moving toward a more professional and "general" tone, I have designed these tags to focus on the **reputation, family experience, and regional authenticity** of Nalla Bhoomi.

---

1. SEO Title Tag

The most important 60 characters for ranking. It includes the official name and the primary search terms.

---

3. Strategic Keyword List (For your Tags/Alt-Text)

While "Meta Keywords" aren't used by Google anymore, you should include these phrases in your image "Alt Text" and photo captions to boost SEO:

- **Secondary:** EV Charging Station Karunagappally, Premium Dining Karunagappally, Nalla Bhoomi Restaurant Reviews.

- **Niche Keywords:** Including "EV charging" and "zero-waste" helps you rank for specific searches that competitors might miss (like "restaurants with EV charging near me").
